## Relevant Experience

---

### Software Engineer (Frontend) at Zalando SE   Feb 2017 - Present

Working on tools to increase developer productivity while experimenting with Micro-services for frontend.

[NodeJS](#)   [React](#)   [Redux](#)   [SCSS](#)   [Javascript ES6](#)  
[Webpack](#)   [AppDynamics](#)   [Google Analytics](#)   [🌐 zalando.de](#)

### Software Developer at Andela   Feb 2015 - Feb 2016

Built apps to track and manage the placement of developers on client engagment. Built an internal app integrated with Slack to manage the usage of available laundry machines. I also helped support Andela's Now We Give initiative, a program that offers to build websites for clients in exchange for charitable donations.

[NodeJS](#)   [AngularJS](#)   [Firebase](#)   [MongoDB](#)   [Ruby On Rails](#)  
[Javascript](#)   [CSS3](#)   [PostgreSQL](#)   [🌐 andela.com](#)

### Full-stack Developer (Intern) at SME Funds   Mar 2012 - Aug 2013

Built marketing website, developed customer dashboard to signup customers, track referrals and generate customer reports. Also developed mini-e-commerce tool for customers.

[Linux](#)   [Apache](#)   [MySQL](#)   [PHP](#)  
[Javascript](#)   [CSS3](#)   [jQuery](#)   [Bootstrap](#)   [🌐 www.smefunds.com](#)

### Front-End Developer at virtualQ GMBH   Feb 2016 - Jan 2017

Migrated core company products - dashboards and 3rd party embeddable widgets - from Ruby (Rails) to Javascript (React) while supporting multiple languages English and German. Created charts using D3 provide more insights to customers.

[NodeJS](#)   [React](#)   [Redux](#)   [SCSS](#)   [D3](#)   [🌐 virtualq.io](#)

### Full-stack Developer (Freelance) at UDCreate   Sep 2013 - Jan 2015

Remote/Onsite consulting for tools & apps owned by small and medium scale businesses. Built & maintained over 15+ projects for happy clients.

[Linux](#)   [Apache](#)   [MySQL](#)   [PHP](#)   [Java](#)   [Android](#)  
[Javascript](#)   [CSS3](#)   [jQuery](#)   [Bootstrap](#)   [🌐 udoka.me](#)
