Udoka Kenneth Nkwocha

🌐 https://udoka.me/   ✉ writeudo@gmail.com   ⊙ /udokah   in /thisisudo

Passionate about learning and building stuff for the web. Able to understand business requirements, prioritise work based on highest business value and work with teams to solve problems.
In-depth knowledge of JavaScript and web technologies. Experience building RESTful API's on the backend with NodeJS, MySQL & MongoDB.

Relevant Experience

Software Engineer (Frontend) at Zalando SE
Feb 2017 - Present

Working on tools to increase developer productivity while experimenting with Micro-services for frontend.

`NodeJS` `React` `Redux` `SCSS` `Javascript ES6` `Webpack` `AppDynamics` `Google Analytics` 🌐 zalando.de

Front-End Developer at virtualQ GMBH
Feb 2016 - Jan 2017

Migrated core company products - dashboards and 3rd party embeddable widgets - from Ruby (Rails) to Javascript (React) while supporting multiple languages English and German. Created charts using D3 provide more insights to customers.

`NodeJS` `React` `Redux` `SCSS` `D3` 🌐 virtualq.io

Software Developer at Andela
Feb 2015 - Feb 2016

Built apps to track and manage the placement of developers on client engagment. Built an internal app integrated with Slack to manage the usage of available laundry machines. I also helped support Andela's Now We Give initiative, a program that offers to build websites for clients in exchange for charitable donations.

`NodeJS` `AngularJS` `Firebase` `MongoDB` `Ruby On Rails` `Javascript` `CSS3` `PostgreSQL` 🌐 andela.com

Full-stack Developer at UDCreate LTD
Jan 2013 - Feb 2015

Remote/Onsite consulting for tools & apps owned by small and medium scale businesses. Built & maintained over 15+ projects for happy clients.

`Linux` `Apache` `MySQL` `PHP` `Java` `Android` `Javascript` `CSS3` `jQuery` `Bootstrap` 🌐 udoka.me

Frontend Developer at Botosoft Tech LTD
Jun 2014 - Aug 2014

Onsite consulting. I worked closely with UI designers to create awesome user interfaces offering an intuitive user experience. My roles involved tranforming designs and sketches to semantic HTML/CSS code equivalent.

`HTML5` `CSS3` `Javascript` `jQuery` 🌐 www.botosoft.com

Full-stack Developer (Intern) at SME Funds
Mar 2012 - Aug 2013

Built marketing website, developed customer dashboard to signup customers, track referrals and generate customer reports. Also developed mini-ecommerce tool for customers.

`Linux` `Apache` `MySQL` `PHP` `Javascript` `CSS3` `jQuery` `Bootstrap` 🌐 www.smefunds.com
